DEDICATION

The class of '91 dedicates this yearbook to the men and women of Operation Desert Storm who are fighting in the Persian Gulf for our country and world peace.

Our wish is that their efforts are not in vain and that lasting change towards global understanding is achieved.

To the Class of 1991:

On behalf of the North Shore Regional Vocational School District Committee and the school administration, please accept my best wishes as you enter the adult world. Your high school years have been characterized by some of the most significant changes of the twentieth century. The reunification of Germany, the unification of the European countries, and the democratization of the Soviet Union are representative of that change, and pose a challenge to you to understand, and work in, a global economy.

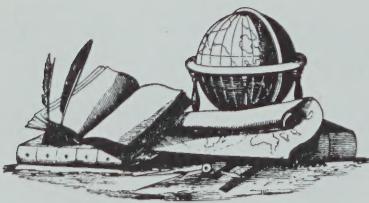

The knowledge and skills which you have acquired in your high school years have prepared you to take your place in a challenging and exciting world. The demand of business and industry will continue to grow more complex throughout your working lives. It is my fond hope for each of you that the education and training you take with you from North Shore Regional will serve as a firm foundation for a lifetime of personal growth and professional learning leading to concerned citizenship in an everchanging world.

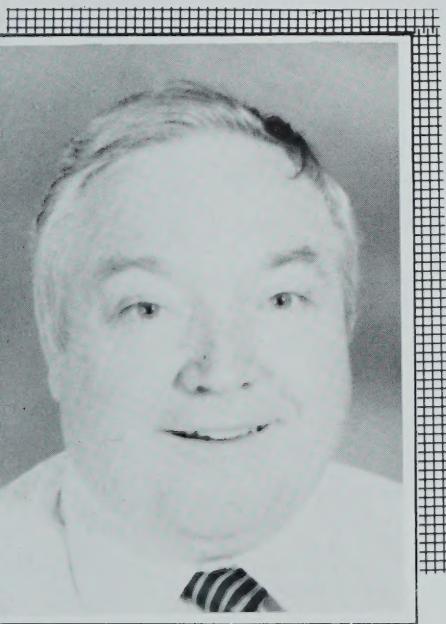

Sincerely,

Patricia W. Carlson
